2. Elimination system (Edition Year 2008-2011)

Campus Study	Warning	Degrading	Dismissing	Note
1 st -4 th year	Failed (or Absent without any reason) $\geq 50\%$	Failed (or Absent without any reason) $\geq 70\%$	Failed (or Absent without any reason) $\geq 85\%$	1) Chinese and Medical Language are not included in the calculating;
<i>*Example (Supposed 8 courses of 1st year)</i>	8*50%=4 Warning: Failed (or Absent without any reason) in 4-5 courses	8*70%=5.6 \approx 6 Degrading: Failed (or Absent without any reason) in 6 courses	8*85%=6.8 \approx 7 Dismissing: Failed (or Absent without any reason) in 7-8 courses	2) Marks of makeup\restudy could not be used for escaping warning, degrading and dismissing
Clinical rotation	1) Failed (or Absent without any reason) <7 of all courses; 2) Failed (or Absent without any reason) <5 of all clinical courses; 3) Failed (or Absent without any reason) <2 of Internal medicine, Surgery, Gynecology & Obstetrics and Pediatrics;			Student unqualified has to attend special make up exams before leaving
Graduation	1) Pass all the exams of Medicine; 2) Pass exams of Chinese and Medical Language; 3) Be qualified in Clinical Rotation; 4) Be qualified in Graduation exams (both theory and practical) 5) Maximum studying period: 7 years			Student unqualified has to re-do the clinical rotation in Qilu Hospital or Provincial Hospital

- 1) Student degrading or dismissing from Grade 2008\2009\2010\2011 is allowed to re-enroll in grade 2012 and lower grades, following the **Elimination system (Edition Year 2012)**.
- 2) The exams he/she passed before re-enrollment are admitted; the exams he/she failed before re-enrollment have to be re-studied and re-written.
- 3) The students above are allowed to choose one special make up exam (before clinical rotation or before graduation)

3. Elimination system (Edition Year 2012)

Campus Study	Annual Credits	Minimum Accumulative Credits (Qualification)	Calculation Method	Note
1 st year	24.5	End of 1 st year: 7	$7 = 24.5 * 30\%$	1) Student who could not get minimum credits has to leave the university and will not be accepted again; 2) Warning and Degrading is canceled
2 nd year	35	End of 2 nd year: 23	$23 = (24.5 + 35) * 40\%$	
3 rd year	39.5	End of 3 rd year: 49	$46 = (24.5 + 35 + 39.5) * 50\%$	
4 th year	34.5	End of 4 th year: 80	$80 = (24.5 + 35 + 39.5 + 34.5) * 60\%$	
5th year	/	End of 5 th year: 93	$93 = (24.5 + 35 + 39.5 + 34.5) * 70\%$	
6th year	/	End of 6 th year: 120	$120 = (24.5 + 35 + 39.5 + 34.5) * 90\%$	
7th year	/	End of 7 th year: 133.5	$133.5 = (24.5 + 35 + 39.5 + 34.5) * 100\%$	
Clinical rotation	/	1) complete 120 credits; 2) finish exams of internal medicine, surgery, gynecology & obstetrics and pediatrics	$120 = (24.5 + 35 + 39.5 + 34.5) * 90\%$	1) Chinese (or Medical Language of English) are not included in the calculating; 2) Student unqualified has to attend normal exams with junior grades before leaving
Graduation	/	1) complete 133.5 credits; 2) finish ≥ 3 elective courses; 3) pass Chinese exam; 4) finish clinical rotation; 5) pass graduation exams; 6) SA students have to pass Forensic medicine	$133.5 = (24.5 + 35 + 39.5 + 34.5) * 100\%$	1) Student unqualified has to re-do the clinical rotation in Qilu Hospital or Provincial Hospital; 2) Student who hasn't complete 133.5 credits before graduation exams has to attend normal exams with junior grades before leaving 3) The maximum length of studying is 7 years

Medicine courses especially the basic courses have learning orders, e.g. Anatomy is the first course for every medical students; Genetics needs the knowledge of Biochemistry and Molecular Biology; Pathophysiology bases on physiology and pathology.
